

Navigation lights concept for offshore windfarms

For the acceptance of an offshore wind farm the operator is obligated to submit navigation lights concepts.

These concepts warrant the safety and efficiency of navigation. ep4 offshore offers comprehensive and customized concepts under consideration of the requirements of navigation, aviation and military.

In detail:

- >> Representation of relevant sets of rules (IALA O-139)**
- >> Optical marking of wind power plant**
- >> Electronic procedures, e.g. AIS, RADAR, etc.**
- >> Elaboration of graphical representations (lightening plans)**
- >> Maritime signal and communication equipment**

Please consult us for helping you to establish individual strategies for your project!

Experience for many years makes the company ep4 offshore a reliable partner for your intents
